

Wireless PM with Add-on Devices

KEY FEATURES

- Adaptable Add on features
- Wi-Fi control
- Bluetooth control
- Overheating protection
- Support resistive, capacitive, and inductive loads
- 1x 16A channel

PRODUCT OVERVIEW

The wireless PM is a small form factor smart switch with power measurement, which allows remote control of electric appliances through a mobile phone, tablet, and PC

The unit can be accessed, controlled and monitored remotely from any place where the user has internet connectivity, as long as the device is connected to a Wi-Fi router and the internet

It can be retrofitted into a temperature sensor by adding the Add on device to the Plus 1PM. This feature allows 24/7 temperature sensing
