

CATEGORY: WIRELESS AUDIO

The Imba is a bookshelf loudspeaker with an integrated digital amplifier, supplied with a wooden base to allow it to stand upright. The bookshelf speaker comes with a 5A 3M lead and a weight of 2.5kgs. Any number of loudspeakers can be used. The volume of each individual loudspeaker can also be adjusted by remote control during the operation. The special paint finish ensures an elegant scratch-resistant surface structure.

KEY FEATURES

- 1,9 GHz n-DECT
- 360° Sound
